

**RAILWAY™**  
Sheathless Access System

# The versatile system for reducing access up to 2F<sup>1</sup>

**Smaller access profile than any radial sheath ▶**

- Reduce risk of spasm & occlusion<sup>2</sup>
- Treat more complex lesions via radial access<sup>3</sup>

**Compatibility ▶**

- Works with hundreds of guiding catheters<sup>4</sup>
- Available in 5F, 6F, and 7F sizes

**Versatility ▶**

- Access with purely sheathless approach for planned interventions
- Increase guiding catheter French size following angiography with a sheath
- Track through radial anatomy either with or without a sheath

**RAILWAY® with 7F guiding catheter = OD profile of a 5F sheath**

Convert your preferred guide<sup>4</sup> into a radial sheathless access system
